FRYER FD 80 D

Specifications

Reference	FD 80 D
Dimensions	540 x 425 x 320 mm
Weight	14 Kg
Power	2 x 3.6 KW
Voltage	2 x 230 V
Capacity	2 x 8 L
Output	30 kg/h

Description

This professional cold-zone fryer is particularly suitable for fast food restaurants. Automatic oil filtering by decanting allows you to fry chips, fish, doughnuts, etc. in succession using the same oil, using minimal quantities of oil, without carbonisation and, therefore, without transmitting taste or smell.

Features: precise bulb thermostat in stainless steel, a double safety thermostat which cuts out in case of overheating or lack of oil, a micro switch, basket fitted with heat resistant handles, pilot lights

Easy cleaning: 5 completely removable parts, oil container can be washed in dishwasher.

Made in France
